AARON LAWRENCE

Santa Rosa, CA | (707) 321-7562 | its@aaaron.io

Summary

Hands-on technology leader with 20 years of experience creating solutions for the mortgage industry. Extensive experience in software development, information security, and IT governance.

Professional History

Level Capital, LLC

Lead Software Engineer | 12/2020 to Present

Leads a team of software developers & data engineers building Level's custom lending platform in Salesforce. Implemented SDLC and information security policies and procedures, assisting Level in obtaining SOC 1 certification. Architected a custom document management tool using Salesforce LWC and AWS technologies, eliminating dependencies on 3rd party vendors.

Caliber Home Loans, Inc.

VP, Origination Technology | 11/2016 to 5/2019

Collaborated with origination teams to define technology goals and priorities. Guided development teams on project deliverables. Helped launch three unique mobile apps across two platforms in my first year. Rebuilt their online application portal, significantly streamlining the loan application process.

First Priority Financial, Inc.

Chief Technology Officer | 1/2009 to 10/2016

Managed the technology team covering network engineering, development, support, and information security. Worked hands-on in developing FPF's custom LOS and mortgage banking platforms. Migrated all employees to the Encompass platform and converted all operations from paper to electronic loan files, significantly reducing overhead and costs.
